TekTips to Assist the Installer with Trouble-Free Installations

Heartland Clutch part A100761 is a complete ClutchPak consisting of A100558 cover, A100756 rigid clutch disc and bearings. The cover in this ClutchPak has adjusting screws at the tip of the release levers for final lever adjustment at the factory. The presence of these screws may cause interference with the clutch disc if a dampened disc is used with it. For that reason, our A100756 clutch disc is recommended to be used with A100558 cover.

For additional application information please contact the Sales Department at **800-383-9204** or **sales@naclutch.com** For clarifications, or general technical assistance related or unrelated to this bulletin, please contact the Sales or Service Department at 1-800-383-9204. NACD-Heartland Clutch is always ready to assist you.
